

Attention Parents/Guardians

Please make sure your child has their needed immunizations before open house on 8-23-2017, otherwise they will not be able to pick up their schedule or attend class until they have received all immunizations required by the state. It has been verified that local clinics do have the required shots at this time. Please contact your family physician for your child's needed immunizations.

As a service, Jasper ISD has provided shot clinics in the spring and one this summer. We do apologize for any shortages the last clinic may have had, but please realize we are at the mercy of their supply and do our best to provide this as an extra service for our community.

For your convenience we are providing the list of clinics in the area that are doing immunizations. Immunizations supplies do fluctuate so if you have not already taken care of this please contact your family doctor or local clinic of your choice as soon as possible. Thank you for your attention to this matter
